Hello,

I have purchased these models last year, and published a paper that demonstrates the results on these models (see here: <http://www.cs.technion.ac.il/~mirela/publications/hfm.pdf>).

We would like to freely distribute our code with a GPL license. Would it be possible to attach the man and woman models as examples to run our code on?

Thank you,

Hi Mirela,

Sure! you can attach these models. And congrats for your publication!

Regards,
